## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 4-9 are rejected under 35 U.S.C. 102(a) as being anticipated by WO 00/05038. RE claim 4, Figs. 2 and 5 show an illuminated tool holder having a light source "34" to illuminate the tips of a plurality of instruments "21" which are pivotally nested in a hand grip "10". RE claim 5, see light switch "31". Re claims 6 and 7, note in Figs. 2 and 5 that grip "10" has multiple tools "21", which pivotally rotate to provide the recited 15 to 60 degrees of positioning. Re claims 8 and 9, note that the grip "10" is sized to ergonomically rest in the left or right hand of the user.

3. Claims 4-9 are rejected under 35 U.S.C. 102(e) as being anticipated by CHUNG (6,511,199). RE claim 4, Figs. 2 and 5 show an illuminated tool holder having a light source "34" to illuminate the tips of a plurality of instruments "21" which are pivotally nested in a hand grip "10". RE claim 5, see light switch "31". Re claims 6 and 7, note in Figs. 2 and 5 that grip "10" has multiple tools "21", which pivotally rotate to provide the recited 15 to 60 degrees of positioning. Re claims 8 and 9, note that the grip "10" is sized to ergonomically rest in the left or right hand of the user.

***Response to Arguments***

4. Applicant's arguments with respect to claims 4-9 have been considered but are moot in view of the new ground(s) of rejection.
